

LifeSize Control delivers complete HD video infrastructure management

Video Management Platform

LifeSize® Control™ is an all-in-one, video management software platform that provides complete management for multi-vendor environments.

Simplifying the administrative experience:

LifeSize Control enables video administrators to efficiently manage growing video and audio communication networks. Control provides intelligent automation tools that address the key video management functions, in a simple straight forward manor.

With LifeSize Control's Smart Scheduler software, and Automatic Call Establishment™, Control frees administrators from manual scheduling. Scheduling video conferences has never been easier.

LifeSize Control's proactive alarm management system keeps administrators informed with on-the-go email alerts and graphical PDF reports delivered directly to an inbox. With LifeSize Control, administrators stay informed from anywhere, 24x7.

Simplifying the end-user experience:

LifeSize Control's Microsoft Exchange integration delivers a simple, yet very effective tool for end-users to schedule video conferences. LifeSize Control makes reserving video conference resources as simple as reserving a conference room. Control's Microsoft Exchange integration requires no Exchange patches and no Outlook plug-ins; making Control as easy to install as it is to use.

Absolute simplicity for end users. Confident IT administrators. Do more. Travel less. Be present with LifeSize Control.

LifeSize Control Key Features

Manage in Real-time

Dashboard homepage provides access to critical information and improves management effectiveness

System Control

Discover, manage, monitor, upgrade and schedule video communications

Multi-Vendor Support

Manage a complete multi-vendor video infrastructure with systems from LifeSize, TANDBERG, Polycom and Radvision

Fast, Easy Scheduling

Schedule multipoint or point-to-point conferences using a web browser or with Microsoft Exchange Integration

Graphical Reporting

Prepackaged data and graphical reports delivered on demand or scheduled to your inbox

Global Directory Services

Automated registration and global access to directory with H.350, LDAP or active directory support

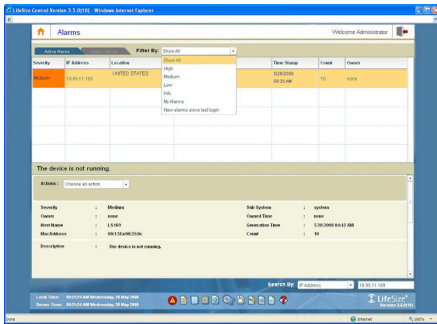

Secure

Standards-based access methods and end-to-end encryption

Smart Scheduler

Automatic resource allocation based on scheduling demands

Product Specifications – LifeSize® Control™

Graphical, Web-based Interface

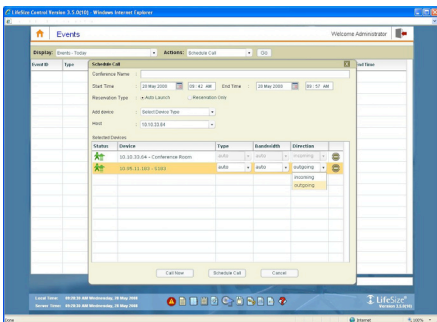

All-in-one, easy to use, web-based interface
Dashboard home screen provides live snapshots of the entire video infrastructure

Multi-Vendor Video Management Platform

Discover, manage, and monitor video communication systems and infrastructure from multiple vendors including LifeSize, TANDBERG®, Polycom® and Radvision®
Manages infrastructure devices including gateways, gatekeepers, and MCU's
Manages multi-vendor H.323, H.320 standards-based systems
Upgrade and downgrade video infrastructure from multiple vendors

Real-Time Alarms, Filter and Workflow

Alarm management system monitors key events including but not limited to: authentication failures, software upgrades, communication issues and network issues
Notify technicians via email and mobile devices
Assign, forward, and acknowledge event alarms for multiple administrators
Control system thresholds of acceptable jitter, packet loss, and frame rate

Templates and System Backups

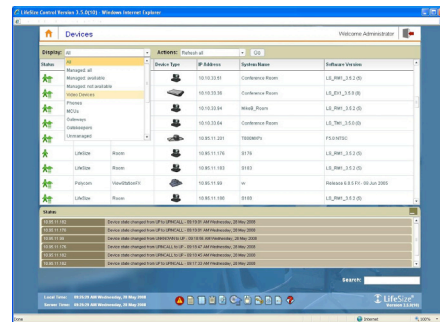

Configure system wide settings for individual video systems or for a group of video systems
Build templates for specific endpoint models, or a common template that can be applied to all LifeSize video systems
Compare differences between templates and deployed systems to ensure system integrity
Maintain backup and restore points for the entire organization

License Key Manager

Store, retrieve and apply LifeSize video conferencing system keys

Smart Scheduler

Smart Scheduler resolves capacity conflicts and allocates resources depending on conference conditions
MCU Affinity associates endpoints with MCU's for either highest quality or best bandwidth cascading
Auto launch calls or reserve resources option
Auto disconnect calls option
External participants invited through IP, ISDN, e.164, or SIP addresses
Drag-and-drop web browser-based scheduling interface for administrators

Directories Services

Standards-based H.350, E.164 compliant user directory
Auto populate new users
Support for multi-vendor address book formats
Support for open LDAP and active directory environment

Live Conference Event Manager

Add participants, drop participants, terminate the call
Show call statistics for each system
View live snapshots of current conference
Adjust volume, and mute
Enable/disable do not disturb

Automatic Call Establishment™ (ACE)

Intelligent call set up and automatic re-routing. No forward call planning for point-to-point to large multipoint calls

Reporting

Pre-packaged and customizable reports
Usage, inventory, diagnostic and reporting on call detail records (CDR)
Graphical and data reports by year, month, week and day
One button export to PDF
Reports generated in real-time from current call detail records
Subscribe to unlimited reports, delivered to your inbox

Microsoft Exchange Integration

Ability to schedule conferences, book resources, and invite participants via Microsoft Outlook
Hassle free installation - No Exchange server patches, no Outlook plug-ins
Transparent resource booking empowers end users to continue using Outlook just as they always have

Security

Standards-based encryption—Rijndael, 16 bit
Secure access methods include SSL, SSH, SFTP
Active Directory or LDAP authentication
Transition log files
Audit features
Secure storage
Roles-based access for administrators, engineers and operators

Server Requirements

Windows Server™ 2003
Active Directory support if not installing the bundled Open LDAP
LifeSize Control supports the following server configurations:

- For support of up to 100 devices: single processor 2.66 GHz machine; 1GB RAM; 80 GB hard disk drive
- For support of up to 500 devices: dual processor 2.66 GHz machine; 4GB RAM; 160 GB hard disk drive

Client Requirements

Microsoft Internet Explorer™ 6.0 SP2 or Mozilla Firefox™ 1.0, 2.0, 3.0
Adobe Flash™ plug-in V.9
